The Bentley Way

The Order

Most of our clients order, through our web site, or by fax. However you choose to order, you can rest assured that your appraisal will get the professional attention it deserves. We immediately make contact to inspect the property.

The Appointment

Our appraisers are linked to the office with a Nextel radio dispatch system, so we can find any appraiser at any time. They also carry digital cameras, producing clear, professional looking photos that download to our system in a matter of minutes. H.K. Bentley insists that all appraisers dress in a professional manner and act accordingly. We can assure you that our appraisers are a great reflection of you in the field. Professional attitude and the best technology available - That's the Bentley Way.

The Processing

Our high-tech equipment and appraisal software help keep our “paperwork” to a minimum. The office is equipped with digital mapping, flood, census, photos, and signatures. We utilize the newest in technology both in hardware and software. No one in the business is as advanced as H.K. Bentley in new techniques to improve and speed our efforts. We can process each appraisal quickly and error-free.

The Delivery

Today, we use the fastest and newest technology in the business. Our field appraisers use PDA's to collect data and digital photos. In rush situations, we send that data over cellular phones to our main servers to download and send to you. Reports are transmitted to you via email and connectivity suites. It is fast, nearly instant and truly state of the art. No more FED EX, couriers, etc.

If you utilize a special or proprietary system, our IT team will integrate our system to yours. Today, getting an appraisal is fast, reliable and easy.

We make it a policy to update our clients every step of the way, confirming receipt of orders, announcing appointment dates, and confirming completed property inspections. The bottom line is that we want to make your business with us hassle and worry-free.

USPAP Review

If you are in the legal field, you know how often real estate appraisals are used in your business. Appraising is a highly subjective business; complicating factors can lead to an incorrect appraisal. The Uniform Standards of Professional Appraisers Practice (USPAP) has very stringent guidelines. An appraisal that does not meet USPAP requirements can cause quite a headache for everyone involved. H.K. Bentley is the expert at appraisal review and compliance verification. We have the knowledge and experience to handle your most difficult cases and will provide you with a detailed copy of the appraisal review. The nation's largest lenders rely on us for their reviews. Let us become your source for accuracy and compliance.

RURAL Appraisals

If you are actively lending on rural, estate or farm property, you cannot afford to be without a real estate appraiser who specializes in this area.

H.K. Bentley knows this market. We work regularly in the counties in which these properties are common, meeting the unique challenges they present.

Great service and superb coverage of these areas are part of the H.K. Bentley pledge to bring outstanding appraisal services to your rural, estate or farm properties
